

# FREE Computer Classes for Women

*Are computers and the internet a complete mystery to you?*

WIRE provides free, basic computer and internet lessons for women of all ages. With only four women in a class our volunteer computer tutor can go at your own pace and focus on your individual interests and needs.

We can cover the absolute basics, including how to drive a mouse, set up an email account and create and save documents.

Each course runs for four weeks with one, two hour class per week. You can choose to come on a Tuesday or a Friday.

@ Women's Information Centre  
210 Lonsdale Street Melbourne

**11am-1pm**  
**Tuesdays or Fridays**
